CARNET DE CONTRÔLE DES INFRACTIONS

NUMERO DE COURSE

NOTE IMPORTANTE :

Un carnet d'infractions conforme au modèle établi par la FFSA sera remis à chaque équipage. Il devra être disponible et présenté à toute demande d'un officiel pendant toute la durée du rallye. Ce carnet devra obligatoirement être restitué en fin de rallye avec le carnet de bord sous peine de disqualification de l'équipage. L'équipage est seul responsable de son carnet d'infractions.

Les agents ou fonctionnaires qui constateraient une infraction aux règles de la circulation commise par un équipage du rallye devront la lui signifier de la même manière que celle utilisée pour les autres usagers de la route.

La réglementation française prévoit (Art 54 de l'arrêté Ministériel du 1er décembre 1959) que les agents de la surveillance de la circulation routière inscriront sur un carnet à feuilles détachables, dont chaque conducteur doit être muni, les infractions graves relevé&es à l'encontre de ce dernier.

Dans le cas où ils décideraient de ne pas arrêter le conducteur en infraction, ils pourront demander d'appliquer les pénalisations prévues au règlement particulier du rallye, sous réserve que :
- la notification de l'infraction parvienne par voie officielle et avec une note écrite, avant l'affichage du-classement ;
- les procès-verbaux soient suffisamment détaillés pour que l'identité du conducteur en infraction soit indiscutablement établie et les lieux et heures parfaitement précisés ;
- les faits reprochés ne soient pas susceptibles d'interprétations diverses.

Le nombre de passages est limité (voir règlement) ainsi que les jours et horaires autorisés

Les équipages ont obligation d'inscrire AU STYLO A BILLE leur heure de passage à chaque départ, chaque arrivée et chaque point intermédiaire.
Sauf indication explicite au règlement, le retour en arrière est strictement interdit et détecté par tracker.

Les concurrents en régularité sportive sont soumis à la même réglementation que les concurrents des rallyes modernes et VHC.

Carnet d' Itinéraire:

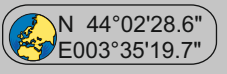
** Toutes les intersections du parcours n'ont pas été décrites; seules figurent celles comportant des indications utiles, ou une ambiguïté sur la route à suivre. Lorsqu'une intersection ne figure pas, suivre la route principale.*

Coordonnées (G.P.S.)

Les points (GPS) sont relevés sur des images satellites à très haute résolution ortho-rectifiées.

Les coordonnées sont exprimées en Degrés(°), Minutes (') et Secondes (") (DMS ou DMS.d).

Elles sont indiquées dans des encarts dédiés. Exemple :

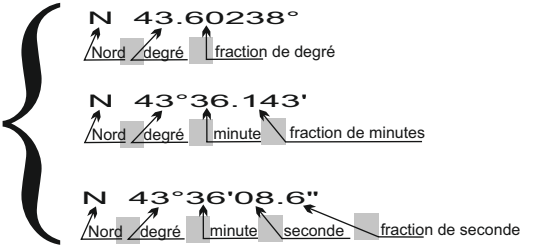


***Selon les paramétrages et modèles de GPS ou les sources cartographiques** (cartes numériques embarquées, globes virtuels sur Internet, etc.) les coordonnées restituées par les appareils sont notamment exprimées :*

- *DMS ou DMS.d (système de coordonnées sexagésimales - utilisant la base 60) pour degrés-minutes-secondes ou degrés-minutes-secondes décimales. Soit 60' dans 1° et 60" dans 1' - soit 3600" dans 1°.*
- *D.d ou DM.d (système de coordonnées décimales - utilisant la base 10) pour des degrés décimaux ou degré-minutes décimales.*

Ces systèmes sont équivalents (exemple: 1 degré 30 minutes (1° 30') = 1,5 degré (1 degré 5 dixièmes)).
Exemple de passage d 'un système à l'autre :
Pour une latitude de 46°10'28" (46 degrés, 10 minutes et 28 secondes).
Exprimée en degrés décimaux, la latitude sera égale à : 46 + (10 / 60) + (28 / 3600) soit 46.1744444°.
En sens inverse:
46.1744444 - 0.1744444 = 46
*0.174444 * 60 = 10.46664*
10.46664 - 0.46664 = 10
*0.46664 * 60 = 27.984 Soit un résultat de : 46° 10' 27.984" (arrondi à 46° 10' 28")*

NOTATIONS EQUIVALENTES



Sous les latitudes du massif des Cévennes 1" (1 seconde) équivaut environ à une longueur de 22m au sol
